

8<sup>th</sup> Joint Meeting  
**Seafood Science and Technology Society  
and  
Atlantic Fisheries Technology Conference**

**OCTOBER 19-22, 2008 • WRIGHTSVILLE BEACH, NC**

Food • Health • Energy

Maximizing Value From Sustainable Ocean Resources

## Guide for Nominating a Candidate for the Earl P. McFee Award

### To Nominate a Candidate for AFTC's Earl P. McFee Award:

1. **You must be** an active AFTC Member<sup>1</sup> or Emeritus Member.
2. You must **complete the Nomination Form** and submit to the Awards Committee Chair by **August 31, 2008**.

**Qualifications Criteria:** The qualifications for nominees of the AFTC Earl P. McFee Award are:

Selection as an Earl P. McFee Award winner is a unique professional distinction that shall be conferred only on a living person, at the time of selection, with outstanding and extraordinary qualifications and experience with respect to his or her overall contributions in the field of seafood science and technology. The nominee must be an active or Emeritus Member of AFTC for at least 10 years. However, if the nominee is an AFTC Member from outside the United States or Canada, the Awards Jury may waive the 10-year requirement.

In addition, the nominee must have attained distinction as measured by performance over a period of 10 years. The judging will be based on the following criteria:

- **Contributions to the profession of seafood science and technology in industry, academia, government, and/or related organizations.** Contributions may include but are not limited to: research achievements, as evidenced by publications, patents, and presentations; industry achievements, such as research management; innovative product and/or process development; inventions or patents; and enhancements in safety and quality systems.
- **Honors, awards and other evidence of recognition within the profession.**
- **Other evidence of leadership and achievements within the profession.** For example: the organization of, or participation in conferences; service on industrial, academic, governmental, and/or on international committees; training programs; internal or external advisory activities; and promoting participation in AFTC activities.
- **Service to AFTC.** This includes participation in national or regional AFTC-related activities. In the case of a member residing outside the United States or Canada, service will be considered in other seafood association's lieu of or in addition to service to AFTC.

**McFee Award Jury:** Selection of the Earl P. McFee award winner is decided by a jury of McFee award winners from the three most recent AFTC meetings with the most distant award winner serving as chair. The McFee committee will solicit nominations from active AFTC members and Emeritus members.

**The Nomination Form** must include the candidate's name, title, current affiliation, most significant contributions in seafood science and technology, previous recognitions, leadership, major achievements and service to AFTC. The form must also include the signature of the nominating AFTC individual member.

Please fill out the the nomination form using MS Word, print and fax to the 2008 McFee Award Coordinator, David Green, at **252-222-6304**, or, save and email to **dpg@ncsu.edu**.

---

1. Active member: individual with active participation in AFTC or SST/AFT joint conference.
